

OSLO OPERA HOUSE

A dramatic and topographic edition to the cities waterfront

The new opera house was completed in 2008, and took approximately five years to build. The opera house has become a building icon in Oslo and boasts some of the world's most renowned opera performances. The main auditorium has a seating capacity for 1364 persons. In addition to the main hall there are two smaller concert halls. The opera building has been built using Italian marble, wood and glass and was designed over an eight year period.

Should you wish to enhance your stay in Oslo with a visit to the opera house, we will be pleased to arrange a tour of the Oslo opera house on your behalf. In addition it will be our pleasure to arrange tickets for performances of your liking. Of course tickets and tours are subject to availability at time of booking, and for this reason we recommend early booking for all performances and tours.
